MACSPRED DISMISS™ ORNAMENTAL HERBICIDE (20 g/Kg OXYFLOURFEN, 10g/Kg ORYZALIN)

Dismiss™ ornamental herbicide is a safe, cost effective pre-emergent granular herbicide which combines two tried and proven active ingredients in the one granule.

Dismiss™ has a dual mode of action as an inhibitor of tubulin formation and an inhibitor of protoporphyrinogen oxidase. For weed resistance management Macspred **Dismiss™** is a Group 0 and G herbicide.

Dismiss™ provides pre-emergent control of most weeds in container and in-ground ornamental plants.

Dismiss™ ornamental herbicide provides up to 3 months weed control of over 40 different weed species in potted and open grown ornamentals.

Dismiss™ ornamental herbicide is packaged in convenient to use 10 kg and 20 kg pails and a handy screw top 1 kg container.

Features of Dismiss™	Benefits
<ul style="list-style-type: none"> This product is the result of 27 years of making quality granular herbicides for the forestry & industrial markets and now for the nursery industry (Macspred was founded in 1985). 	<ul style="list-style-type: none"> ✓ High quality granule, suitable for large and small scale application. ✓ Product readily available locally.
<ul style="list-style-type: none"> Contains two tried and proven active ingredients in the one granule. 	<ul style="list-style-type: none"> ✓ Extended range of species controlled. ✓ Two pathways of control to assist with difficult weeds.
<ul style="list-style-type: none"> This product is a low dust and low odour formulation. 	<ul style="list-style-type: none"> ✓ Affords better OH&S outcomes. ✓ Higher user comfort. ✓ Less off target damage from dust on leaves.
<ul style="list-style-type: none"> Dismiss™ granules are of a uniform size. 	<ul style="list-style-type: none"> ✓ Uniform granule sizes allow for more accurate application through the Dismiss™ calibrated shaker jug for application to individual pots, or the Gordon's Spread-Rite® granule spreader, for larger areas. Calibration guides available.
<ul style="list-style-type: none"> Provides broad spectrum weed control of both broadleaf and grass weeds to a standard expected by the nursery and landscaping industry. 	<ul style="list-style-type: none"> ✓ Nurserymen can have confidence in good control of most weeds. ✓ No need for multiple products. ✓ Reduces the herbicide inventory. ✓ Improves commercial value of stock.
<ul style="list-style-type: none"> Provides up to 3 months weed control of over 40 different weed species. 	<ul style="list-style-type: none"> ✓ Reduces the time spent on weed control operations. ✓ Improves aesthetic and retail value of stock.
<ul style="list-style-type: none"> Dismiss™ is packaged in convenient to use 10 kg and 20 kg pails and a handy screw top 1 kg container. An applicator is available. 	<ul style="list-style-type: none"> ✓ Packaged in a resealable bucket to avoid accidents & spills. ✓ Easy to use applicator with a handle. ✓ Quick & easy refilling of applicator.
<ul style="list-style-type: none"> Manufactured in Australia by Macspred, a R&D company that will continue to provide innovative products to the market. 	<ul style="list-style-type: none"> ✓ Macspred has its own manufacturing plant and also manufactures a range of residual herbicides to compliment any nursery or landscape enterprise. ✓ Provides local jobs for local people.

Easy to apply, low dust, low odour granular formulation. Increase the aesthetic and commercial value of your potted inventory through weed free pots with **Macspred Dismiss™ Ornamental Herbicide**.
